## Drum Type Concrete Mixer 125 Liters

### PRODUCT MODEL

C3510/250 Drum Type Concrete Mixer 125 Liters

### INFORMATION

Manufacturer	TESTMAK INS.LAB.MAK.SAN.VE TIC. PAZ. ITH. IHR. LTD. STI
Country of Origin	TURKEY
Product Name	Drum Type Concrete Mixer

## Drum Type Concrete Mixer 125 Liters

### DESCRIPTION

In today's construction world, concrete mixers have accomplished great works in the field of construction. Concrete mixers ensure the application of all mixtures such as concrete, plaster and mosaic. There are electric, gasoline and diesel options. Concrete mixers are among the construction machines that construction masters and contractors have not given up for a long time with their ease of use, durability and high capacity efficiency.

Concrete mixers are conventional black plaster, inner plaster, outer plaster, screed, insulation, adhesive, repair-reinforcing mortar, combining plasters, masonry mortars, filling and connection mortars etc. It offers the fastest and most economical way of doing business. The concrete mixer is divided into several classes according to the areas where it is used. The concrete can be produced ideally for each job according to the size of the job.

### TECHNICAL SPECIFICATIONS

Product Code	C3510/125
Engine Type	220 V - 50 Hz - 2 KW
Drum Capacity	135 L
Mixing Capacity	125 L
Production / Hour	2-3 m <sup>3</sup> /h
Dimension (L x W x H)	1020x670x1150 m
Weight	42 Kg
